Messaging module

The image shows a messaging interface. On the left, a sidebar titled "Messages (1)" lists messages from "Paws and C.." and "Animalia Ki...". The main area shows a conversation with "Paws and Claws". The user asks about pet availability and preferences, and the service responds with availability and asks about color and age. The user specifies they want a small dog or cat friendly with kids. The interface includes a search bar, a message input field, and a yellow header bar.

Absolutely! We have a variety of pets available for adoption.

Can you tell me a bit about what you're looking for?

13:45 PM | May 1

I'm looking for a small dog or a cat. I live in an apartment, so it can't be too big.

14:01 PM | May 1

Great, we have plenty of small dogs and cats available. Do you have any preference on color or age?

18:28 PM | May 1

Not really, as long as it's friendly and good with kids.

 Animalia Kingdom
456 Main St., Naga City

Ajax is a beautiful gray tabby cat with soft fur and captivating green eyes. He is a playful and curious cat who loves to explore her surroundings and climb to high places. Ajax enjoys playing with toys and chasing after strings, and he is also content to curl up in a cozy spot for a nap. He is a friendly and affectionate cat who loves to cuddle with her humans and will often purr contentedly when being petted. Ajax is also very independent and likes to have his alone time, but he is always happy to come back for some attention and affection.
